Summary:
Cost Model Enhancements

Description
h1. User Story

As a user I want a to expand my options when creating a cost model so that the cost reported better fits my needs. I would like to expand in the following way:
 # Allow multiple rates for the same metric, measurement, and calculation type
 # Allow setting rates on a specific tag or group of tags (based on tag key) for a particular metric, measurement, and calculation type combination.

h1. Impacts
 * API
 * Data Backend
 * UI
 * UX
